SAC Directors & Committees

This volume is dedicated to all the fine volunteers in our sport who have given so freely of their time and energy to make the organization work for the benefit of everyone.

This document lists our Soaring Association of Canada Board of Directors and every committee with its members since the inception of SAC. There are also a number of volunteers helping in FAI related work – yes, we are also represented there!

The *name index* cross-references individuals with the offices held by them – for biographies and the like. Changes to this file are kept current (I hope).

The data have been gathered from the first “SAC Procedures Manual”, issued in 1982, and from *free flight* issues dating back to 1945; however, you will find quite a few empty spots. If you know of any names that could fill a hole, please let us know. Equally important is the correction of errors.

Your help is most appreciated.

Background for Finance & Steering Committee 1991-2004

The Steering Committee was an ad hoc construct. It was originally established when there was a lot of pressure on SAC because of the airspace issue, the establishment of NavCan, as well as issues associated with the reorganization of Transport Canada. SAC had to act fairly quickly on several fronts and there was not always time to have board meetings that, in addition, were costly. There was also a need to quickly build a competent Airspace Committee.

Eventually the work of the Steering Committee seemed to overlap too much with that of the Board, so the committee was dropped.

A similar committee could be constituted if a critical issue that required a lot of extra attention were to arise.

At the time, the committee was instrumental in dealing with most of the important regulatory issues facing the soaring community.

Statistics (Roden trophy) 1949-1997

Free Flight 3-4/5 — terms of reference

Producing records of statistical information covering all aspects of Canadian gliding to the AGM and for submittal to the FAI. The statistics on hours, gliders, participation in flying by clubs, achievement of A, B, C badges, unusual flights made, etc. were considered for the Roden trophy.

Committee was closed due to lack of participation by the clubs at end of 1997.

The Roden trophy will now be awarded for different requirements and will be handled by the FAI awards chairman.
